

Imagine ...

***getting the training you need
when you need it
where it's convenient for you***

Information Technology Services provides convenient and cost-effective technology training at your request. Choose the type of training you need, and an experienced professional will lead your group in skill-building sessions that will make a positive impact on your organization.

Information Technology Services currently offers training upon request in the following areas:

- ▶ Administrative Computing
- ▶ ANGEL: Penn State's Course Management System
- ▶ General Computing and Technology
- ▶ High Performance Computing and Visualization
- ▶ Security
- ▶ Telecommunications and Networking

Visit the ITS Training Services Web site to further explore your technology training options.
