

Students can build valued skills working as Tech Tutors: Apply now for the [season year] semester

Students at University Park may apply to become Tech Tutors to help other students use technology to complete course assignments and to provide faculty members with assistance on technology-related teaching, learning, and class management topics. Tutoring areas include Access, Excel, ANGEL, Blogs at Penn State, PowerPoint, Visio, basic computer skills, e-mail and file organization, creating web pages, and more. Tech Tutors gain one-on-one consulting experience and build communication and organizational skills while enhancing knowledge of technology. Applications are currently being accepted for the [season year] semester. For more information, visit <http://its.psu.edu/about/employment>.

Tech Tutors help students learn technology to complete assignments

Starting this semester, students can get personalized assistance with many of the technologies needed to complete course assignments. Penn State Tech Tutors are available in various University Park computer labs at scheduled times throughout the semester to assist students on topics like Access, Excel, ANGEL, Blogs at Penn State, PowerPoint, Visio, and more. For more information or to view the [semester year] schedule, visit <http://its.psu.edu/training/techtutors/>.
